James W. Parr, Plant Superintendent
Eagle Engineering, Inc
2701 South 1st Street
Eldridge, IA 52748

Dear Mr. Parr:

RE: Eagle Engineering, Inc
Eldridge, IA
RCRA ID No. IAR000006288

Letter of Warning

On April 7, 2004, a representative of the U. S. Environmental Protection Agency (EPA) inspected your facility. The inspection was conducted under the authority of Section 3007 of the Resource Conservation and Recovery Act (RCRA). A copy of that inspection report is enclosed.

I have reviewed the inspection report and determined that a violation of RCRA was documented. At the time of the inspection, it was noted that two 55-gallon drums of coolant/used oil were not labeled with the words "Used Oil." This is a violation of 40 Code of Federal Regulations (CFR) § 279.22(c)(1). In order to correct this violation, Eagle Engineering, Inc must properly label all used oil containers with the words "Used Oil." While you are not required to submit anything at this time, you are responsible for correcting this violation. Please note that your correction of this violation does not prevent EPA from pursuing appropriate enforcement actions, including penalties, for violations discovered as a result of the inspection.

I would like to remind you that your facility is responsible for maintaining compliance with all applicable hazardous waste regulations. If there are any questions regarding this matter, please contact Robert Anslyn working under a grant for EPA at (913) 551-7935.

Sincerely,

Edwin G. Buckner
Compliance Officer
